Antioch Country Fair Opens Today

**THREE-DAY EVENT WILL
BE WELL ATTENDED;
DAY AND NIGHT FAIR**

**Eleventh Annual Show Is
Enlargement Over Pre-
vious Ones**

**QUALITY EXHIBITS
PLEASE OFFICIALS**

The eleventh annual Antioch Country Fair got under way today with the placing of exhibits and final preparations being made for the three-day exhibition on the grounds of the Antioch Township High school, that promises to surpass any previous show in public interest, number and quality of exhibits and entertainment features.

Greater interest is being shown in the fair this year than ever before, according to President D. H. Minto. "There have been more numerous inquiries, and they have come from greater distances this year than ever before," Minto said, indicating exhibits for the poultry department that had just arrived from Winnebago and other downstate counties. President Minto and his associates believe that additional facilities will have to be provided to take care of exhibits in the present classes and others to be added later. Plans for expansion are being considered.

King Busy with Exhibits.
The busiest man on the grounds today was Emmet King, secretary, who was kept on the jump from one department to another as the array of exhibits was being placed. "The exhibits in all classes will equal those of any previous year," King stated. The placing of concessions and arranging the program of entertainment also required much of the secretary's time.

Among the headliners on the free entertainment program will be the Savilla-Frazier Trio in comic acrobatic stunts, which will be staged both afternoons and evenings; band concerts under the direction of Hans Von Holwede; the Harris Family of Gurnee in special music features, each afternoon and evening, and the style shows for men and women on the stage in the auditorium. An accordion player will be on the grounds Friday afternoon.

Many Exhibits
There will be the usual number of amusement concessions, games, doll racks, cat racks, and others, and the ever-popular merry-go-round. New this year is the miniature railroad with trains that make round trips from "Toonerville Station." High school groups will also have refreshment stands and amusement concessions.

Local firms having exhibits include: The Antioch Milling Co., Antioch Garage Ford exhibit; Rentner & Haley Chevrolet; Chas. Richards, farm implements and tractors; Al B. Maler, tires; Lake County Farm Supply; Pure Milk Association, and the Wilton Pump Sales. A representative from the Chickstone Company will serve as poultry expert in the show room.

Schools of the locality have special educational exhibits. These are always the center of great attraction to fair visitors.

Department Heads
Exhibits were being placed by the superintendents of the several departments, which are as follows:

Poultry.....Bert Edwards
Dairy Cattle.....Kenneth Denman
Rabbits, Fur Animals.....Lloyd Atwell
Agriculture.....Charles Paddock
Horticulture.....Kenneth Hills
Fine Arts.....Miss Lottie Jones
Domestic Arts, Mrs. Clarence Crowley
Pantry Stores.....Miss Ethel McGuire
Education.....W. C. Petty
Admission to the fair is 25c for adults. Season tickets are one dollar, which are good for five admissions and also carry the privilege of entering 15 exhibits. Children under 12 are admitted free.

Will Start Muskrat Farm Near Antioch

This community is to have a muskrat farm. The proprietor is Walter Frazier of Glen Ellyn, Ill., who has purchased the Colegrove farm east of Antioch. Frazier's first step in fitting the 40 acres for a home for the fur-bearing animals was to provide a plentiful water supply, and James Stearns, Antioch contractor, has just completed dredging a channel 100 rods long, 16 feet wide and from five to ten feet deep.

There are several fox farms and one mink farm in this locality, but Mr. Frazier is the first to try his hand at raising muskrats in quantity.

"CRAZY POLITICS" NOW IN REHEARSAL; 100 PEOPLE IN CAST

**Sponsored by the Episcopal
Guild October
11 and 12**

Interest is growing in "Crazy Politics," a master stage show of side-splitting comedy of political life to be produced Thursday and Friday nights, October 11 and 12 at the Antioch High school auditorium. The Episcopal Guild is sponsoring the play.

The scene of the entire play is laid in the People's party headquarters in the town of Centerville and the plot centers around the election of mayor. Twenty-five prominent business men will take part in the opening scene of the show, which is a parade led by a German band. These men are the caucus members who nominate a woman for mayor. The woman nominated is Mrs. Courtney Van Dyne who is traveling in Europe and falls to return at the appointed time. Pat O'Donnell, a wise-cracking newspaper reporter is forced to masquerade as the missing woman. This character is the lead in the show and will be played by Bill Nelson. O'Donnell's sweetheart, Sally Carter, is to be played by Miss Fannie Westlake.

The comedy situations are screamingly funny. After O'Donnell is dressed up to impersonate the woman candidate, instead of running a dignified campaign, he decides to run on a whoopee platform and give the people a song-and-dance affair with the slogan, "Boop-doo-a-doo, hay-nony-and-a-hotcha-cha."

There are twenty-one high school girls in the show, thirty-six singing politicians, six modernistic kiddies and six sophisticated kiddies.

Among the characters in the cast of 100 appear the names of Mayor George Bartlett, Frank R. King, Frank Hamlin, H. H. Reichers, Mrs. Chas. Webb, Bill Nelson, Harry Jensen, Phil Anderson, Fannie Westlake, Reta Hawkins, Homer LaPlant, Fred Hawkins, Miss Roberts, Mrs. Arthur Edgar, Mrs. Fern Lux, C. C. Frye, Ralph Clabaugh, John Horan, Earl Yates, Bill Overton, O. E. Hachmeister, Eddie Kappel, F. B. Swanson, and others.

The sponsors say: "Come out and vote the laugh ticket next Thursday and Friday nights when you see 'Crazy Politics.' Reserved seats will be on sale Wednesday morning at King's Drug Store.

Legion Auxiliary Aids Welfare Work

The local Legion Auxiliary's part in aiding public welfare work in this community was disclosed this week when the auditing committee met at the home of Mrs. William Anderson. The Auxiliary during the year has disbursed \$100.72 for child welfare and rehabilitation work, the audit revealed, and \$18.50 from the Americanism and Fidae committees went as awards to pupils in the Antioch schools.

The auditing committee members are Mrs. Chris Mortensen, Mrs. Walter Hills and Mrs. Naon Sibley.

FIRE LOSS HERE IS SMALL, CHIEF STEARNS REPORTS

**Local Department Answers
54 Calls This
Year**

Losses from fire in the village of Antioch have been small thus far this year, according to Chief James Stearns, who is advising through the department committees that a general cleanup of the village and fire district be made. The advice comes on the eve of "Fire Prevention Week," to be observed next week and which is so designated by the governor's proclamation.

Only minor losses occurred in the village, according to the report of the secretary. The largest of these was the blaze in the basement of the First National Bank, and the total damage by fire has amounted to \$627.

During the first nine months of this year the department answered 54 calls. Six of these were from Wisconsin. The total amount of property menaced by fire has a value of \$124,000 upon which \$39,500 of insurance was carried, the firemen report. Most of the property visited by the firemen was saved.

"Fully 95 per cent of all fires can be traced to preventable causes," Chief Stearns said today.

The chief has been witnessing the fire drills at the local schools, and reports that both the high school and grade school buildings are being cleared in record time. Later he plans to have the state deputy fire marshal from this district visit the schools.

Woman's Club Has Guest Day at First Meeting

Forty-five Antioch women heard an excellent program at the meeting of the Woman's Club held Monday afternoon at the home of Mrs. W. C. Petty on Spafford street. The meeting, which was the first of the year, was designated as guest day and every member was privileged to bring one guest.

Heard on the program were: Mrs. Herbert Weed, Chicago, who made a brief talk; Mrs. M. E. Amstutz, Waukegan, in musical readings and songs; and Mrs. C. K. Timmons, Chicago, 10th district Law Observance chairman, who spoke on department work.

The next meeting will be at the home of Mrs. W. R. Williams on October 15th.

ONE OF GARLAND TWINS DIES

Baby Ruth Alice Garland, one of the twin daughters born to Mr. and Mrs. George Garland last May 16th, passed away Friday evening at Victory Memorial hospital, Waukegan.

Death was due to an enlarged thymus, physicians stated. The gland is present in the chest of all infants. It should reduce shortly after birth, but in this case it failed to do so, and no symptoms were evident until a few hours before death.

Private burial services were held Sunday morning at the home and interment was in Liberty Corners cemetery.

Antioch Composer's Song to Be Heard in Radio Broadcast

An unusual honor will be accorded Mrs. Mary Mapletorpe, Antioch composer Monday when her song "Credo" will be broadcast by the National Broadcasting chain on the Charles Sears program at 11:15 a. m. The program will be heard here through WMAQ, Chicago.

GRADE SCHOOL NOTES "In School Days" HIGH SCHOOL NOTES

HIGH SCHOOL GROUPS TO HAVE CONCESSIONS AT ANTIOCH FAIR

All the classes of the Antioch High School have different concessions at the fair this year. The Seniors are presenting a humorous play called "Wienies on Wednesday" and also a side show, including among other features the tallest man in Lake county. The admission will be ten cents for the play and those who wish to see the side show will pay five cents extra. The members of the cast are as follows:

Madame Castinelli.....Agnes Tegeth
Jack.....Rodney Jacobs
Marion.....Priscilla Brett
Mrs. Foster.....Agnes Christensen
Mr. Foster.....Bob Smith
The Sophomores will conduct a cafeteria during the three days of the fair, and the Freshmen will sell hamburgers, coffee, and taffy apples.

The Junior class will have a booth at which they will sell candy, cracker jack, pop, and also ice cream bars. They will also give a dance inside the building and the music will be furnished by a seven piece orchestra.

The Junior class has selected the design for its class ring, and orders will be taken as soon as the models are received.

SCHOOL CLUBS

CHOOSE OFFICERS
On September 26, club meetings were held and the following officers were elected:

Home Economics
President, Lillian Musch; vice president, Ayice Richards; secretary, Lena Peterson; treasurer, Alice Palaske.

Consules, Gwendolyn Sittler, Betty Bray; Scriba, Grace Minto; Inaestor, Gropley Phillips.

Commercial
President, Bertha Cremin; vice president, Edith Murphy; secretary, Priscilla Brett; treasurer, Lars Stiefenberg.

Future Farmers
President, Howard Bonner; vice president, Glen Griffin; secretary, Frank Verkest; treasurer, Frank Zelen; reporter, Everett Truax.

The officers of the Mathematics Club will be voted for in the next meeting.

Two of these clubs are having booths at the Antioch Fair this week. The Latin League will conduct a Roman Forum or market place where they will sell all kinds of goods. The Future Farmers will sell hot dogs, coffee, and ice cream cones.

P. T. A. To Hold First Meeting Monday Room "Mothers" Will Encourage Regular Attendance

The Antioch Parent-Teacher Association will hold the first meeting of the year at the Grade School Monday evening, Oct. 8, when an instructing and entertaining program will be heard and announcements made of plans for the year.

The speaker will be County Superintendent W. C. Petty. Mr. Adolph Gill of Lake Catherine, will sing. He will be accompanied by his daughter, Miss Vera Gill.

The program committee has planned a general program for the year, consisting of entertaining and instructive sessions to be held during the school year. Serving on the committee are Mrs. H. J. Vos, chairman, Mrs. Jos. Patrovsky and Prin. R. E. Clabaugh. Mrs. Ernestine Robbins is president of the Association.

COACH SUTER KEEPS ATHLETES ON THE MOVE

The basketball squad is kept quite busy these days drilling on fundamentals. According to Coach Suter a team must learn to pass and dribble before it can enter a game with any hope of success. Two nights a week are spent by the boys in the gym and two nights are spent outside playing softball and speedball. On Friday night all the boys are inside.

The girls have also started an intramural softball and volleyball and the young ladies may be seen on the athletic field in the rear of the school going to it with vim and vigor.

Judging from the way the boys have improved in their fundamentals, Antioch might stand a chance of going up in the Northwest Conference standings this year. However, it is too early to make any predictions.

WALTER CHINN IS VICTIM OF ASSAULT

**Stranger Seeks Lodging;
Uses Blackjack on
Policeman**

Walter Chinn, one of Antioch's merchants' night policemen, was assaulted and beaten Tuesday night by an unidentified man who had asked for a night's lodging.

Chinn was unarmed when the stranger attacked him as he was unlocking the door at the village hall. John Brogan, the other night watchman, heard Chinn's cries for help and hastened to the village hall, but the stranger had disappeared. Brogan fired several shots in the direction from which he heard footsteps but failed to see the man.

Chinn's scalp was badly lacerated and he was taken to the office of Dr. W. W. Warriner for treatment.

Deputy Sheriffs Palmeri and Grievs searched the locality without finding any trace of the man. Chinn stated he was accosted by the well dressed stranger shortly after midnight. The man, so far as is known, had no accomplices and the motive for the attack is unknown, unless it be that a robbery was planned and he took this method of preventing any interference from the policeman.

Antioch Oddfellows to Entertain Lodges of 14th District

The Antioch Odd Fellows Lodge will be host to lodges of the 14th district at a meeting to be held here next Thursday night. Officers have announced that business of importance is to come before the meeting. Lodges represented will include Hebron, Harvard, Crystal Lake, Belvidere, Poplar Grove and Woodstock.

weeks, was given on Monday morning at 8:30 in the high school auditorium. The picture was a most interesting portrayal of the taming of a wild horse. Our next movie will be presented on October 14.

STANLEY BROOKES ON ASSEMBLY PROGRAM

On Thursday, October 4, we were entertained by Stanley Brookes, the leading Australian Dickensian platform recitallist and adjudicator. His main purpose for giving these recitals is to prepare students for Dickensian platform work, stagecraft, dramatic arts, wireless speech, and for the "talkies."

Find No More Scarlet Fever

No other cases of scarlet fever have developed in Antioch community since last Friday when Marie Ball, 13-year-old daughter of Mr. and Mrs. Carl Ball, was taken to the isolation hospital in Waukegan, Prin. Ralph E. Clabaugh reported today. However, health authorities are keeping close watch upon all school children in order to detect any symptoms of the disease should any further cases develop.

Grade Team Has Perfect Average

The Antioch Grade School soft ball team maintained the perfect average held in the conference by defeating Round Lake, 17 to 0, here Friday afternoon. The team has played half of the games scheduled for the fall series, three games, and has won them all. The team goes to Fox Lake this afternoon.

GRAYSLAKE TO BE HOST TO WOMEN'S CLUBS

The Grayslake Woman's Club will be host to clubs of the tenth district tomorrow afternoon. The district board meeting will be held at one o'clock and the program will start at two o'clock. Mrs. Weed, tenth district president, will be the speaker.

According to relief agencies in Oakland, Cal., 15 per cent of the destitute "transients" in California arrived in the state in their own automobiles.

READ THE CONSTITUTION

It would be interesting to know how many Americans have read the Constitution of the United States, the document upon which the republic was built, since they passed out of school.

The chances are that far less than ten per cent could honestly say that they have read it. They have seen a few quotations from it in articles and editorials; they know vaguely that its purpose is to guarantee liberty and opportunity for all, and to assure stable, representative government, and that's about all they know.

There never was a time when a general study of the Constitution would be so valuable as now. Today it is being criticized, it is accused of the crime of antiquity, and those who would change it say it has outlived its usefulness. The result of these attacks on the Constitution are already reflected in legislation and governmental procedure—liberties, rights, privileges, for which our ancestors fought and died, are endangered. In other countries, similar constitutional guarantees have been thrown overboard—and the final result has been invariably dictatorship. It should be everlastingly kept in mind that the Constitution is the bulwark that stands between us and one "ism" or another.

Read the Constitution, paying especial attention to the sections which compose the Bill of Rights. Those sections reflect all that man has striven for through thousands of years of turmoil—the widest possible liberty, the right to live as an individual, dominated by none. If the Constitution is out-of-date, so is the cause of human freedom.

YOUR DOLLAR'S WORTH

Take a dollar out of your pocket, it's yours—you can do anything you like with it. But you can't buy a dollar's worth of commodities or services.

The reason for that is that about 25 per cent of your dollar has to go to the government. If you use it to buy theatre tickets, gasoline, cigarettes, electricity, clothing or anything else, 25 per cent of the cost, on the average, will represent taxes.

The main reason we have allowed the tax problem to grow so grave in this country is that millions of people haven't realized that such a problem exists! These are the people who pay no taxes directly. Their incomes are below the level touched by the income tax.

They rent homes. They do not own a business, but work for someone else. And the result is a belief that those who own businesses, have larger incomes, and possess property pay all the taxes.

There aren't enough large-income people in the country to make a dent in meeting the cost of government. The great bulk of taxes are taken from the ordinary person—and they are taken indirectly. Instead of writing the tax-collector a check, most of our citizens pay their taxes unknowingly during the course of daily living. Rent is higher than it would be, because the landlord must pay taxes. Salaries are smaller, because the employer is heavily taxed. Food is more costly because the farmer, the processor, the transporter and the final seller are all taxed. So it goes, through everything we need and use.

Don't be fooled. Everyone pays taxes—everyone is in danger of being forced to pay more. A reduction in taxation through less tax spending is essential.

A FIRE PREVENTION PROGRAM FOR THE INDIVIDUAL

During October, Fire Prevention Week will be observed again. Every householder should look forward to the week, and determine to follow a fire prevention program of his own.

His first action should be to learn, from fire marshals or other authorities, all he can about the menace of fire and ways to eliminate the more ordinary hazards. He should make a thorough inspection of his home, place of business and other property, beginning with the basement. There's a chance he will discover old papers or other rubbish in places that offer a perpetual invitation to fire. It's possible that the furnace is out of repair—with winter coming on, a weakness in the heating system may lead to complete destruction of his home. And a million basements contain still another major hazard—improperly stored gasoline, kerosene, inflammable cleaning and other liquids.

That done, the citizen isn't nearly through. How about wiring and the lamp connections? Most of us, at one time or another, have done amateur work of this kind, and forgotten to have it replaced by an expert electrician. It would be a safe bet that there are thousands of switchboxes in which a penny is acting as a fuse, placed there "temporarily." One short-circuit—and fire will result.

Finally, it is a rare attic which doesn't contain an accumulation of old clothes, old magazines, old furniture and old luggage—all ready to burn.

Look your property over. And in the future make the same inspection at regular intervals. It will minimize the chance of fire—and that means safety to life, and money in your pocket.

"The American Nation was built on the profit system, and to remain the great Nation that it is, it must continue the profit system."—Malcolm Muir, President, McGraw-Hill Publishing Company.

THE 1934TH PSALM

Mr. Roosevelt is my shepherd. I am in want. He maketh me to lie down on park benches. He leadeth me beside the still factories. He disturbeth my soul. He leadeth me into the paths of destruction for his party's sake. Yea, though I walk through the valley of the shadow of the depression I anticipate no recovery, for he is with me. His policies and his diplomacies, they frighten me. He prepareth a reduction in my salary in the presence of my creditors. He annointeth my income with taxes, and my expenses increase. Surely, unemployment and poverty shall follow me all the days of my life, and I shall dwell in a mortgaged house forever.

POLITICS AND BEDFELLOWS

The spectacle of Bruce Campbell, Michael L. Igoe and John H. Stelle campaigning together in the Democratic cause is one of the most inspiring pictures of brotherly love that has ever been presented to Illinois voters. But we can't help but wonder what Igoe really thinks of Campbell, who got the gubernatorial primary in 1932 in time to keep Igoe from defeating Henry Horner, or what Igoe and Campbell think of Stelle, who successfully conducted the Horner campaign against both of them.

Gov. Horner said in his Constitution Day proclamation that there are men in Washington capable of protecting and preserving the fundamental principles of the Constitution. True, brother, true. But what everybody wants to know is why they don't do it.

● We're burning low-priced coal in our house this winter—for this new F.M. Deluxe Automatic Stoker gets the greatest possible amount of heat out of every pound of coal.
● We fill the hopper at night, and there's an even temperature all night and all the next day without shoveling, watching the fire or fussy regulation. It's quiet—clean—dependable. And best of all, it's practically paying for itself in fuel saved.
Come in today and let us show you how the new F.M. Automatic Coal Stoker can give you clean, uniform heat this winter at a real saving. Ask about our convenient purchase plan.

Eye-Strain Unknown to
Ancients; Civilization
Lays New Tasks on Sight

Our caveman forefathers 300,000 years ago knew nothing of eye strain. Their acute sight enabled them to see and identify game quarry or enemy a mile away. Their eyes were used only in daylight. Their nights were given over for the most part to rest and sleep.

A smoldering brush fire or flaring faggot gave all the night light needed to discover his skin mantle for cover or to find his bed of leaves or twigs. The keen vision of the prehistoric man was matched by his acute sense of hearing, touch, taste and smell. He used continuously all his senses.

With the dawn of civilization came artificial light but that was a comparatively short time ago, perhaps 10,000 years, a small fraction of man's whole time on earth. First the bone or clay dish with its fibre wick floating in oil; then the candle and kerosene oil lamp, the gas jet and finally the incandescent light, in order.

With the coming of artificial light, man began to use his eyes under insufficient light. Instead of using them for long range vision under the high intensities of daylight—intensities hundreds of times greater than we find indoors even today—he began to use his eyes for close seeing under low light intensities.

Use of Eyes Changes
As the centuries passed and civilization progressed, man came more and more to depend upon insufficient artificial light and a generation or two ago he laid upon his eyes new duties, labors which had previously largely been performed by his other senses. For example, the man in a

busy downtown city street today depends wholly upon his sight to avoid accident. The general noise and clamor makes his hearing un dependable.

Today we may have substituted close seeing indoors at extremely low levels of lighting, a much longer day and severe eye tasks, for primitive man's long distance seeing under high quantities of natural daylight. The result to the present generation is damaged eyesight to an alarming degree among people of every age.

Twenty per cent of the grade children have impaired eyesight. Eyesight impairment runs to 40 per cent among college students, 60 per cent among persons more than 40 years of age and 95 per cent in persons over 60.

For years little has been done about improving this situation. Persons with falling eyesight have resorted to glasses but have failed to remove the chief cause of sight de-

terioration—the lack of sufficient light.

Light Measuring Perfected
But now the new science of seeing offers the proper approach to this problem and from it arises a new conception of visibility. Scientific research proves that sufficient artificial light largely will prevent impairment of vision and now instruments recently perfected now permit the measuring of light as accurately as a thermometer measures temperature. They also indicate the amount of light which science prescribes for eye tasks of varying degrees of severity.

Chief of these new devices is called a light meter. It has a two-fold purpose. It measures the amount of light now on your task and indicates the amount you should have for easy seeing. With it you can demonstrate in your home, office or factory, where eye work is done, and determine the kind of light necessary for all eye tasks performed.

Olson Rug Company Opens Loop Store

On the eve of its sixtieth anniversary, the Olson Rug Company has opened a loop store at 35 E. Madison Street, between State and Wabash. According to Walter E. Olson, president of the concern, the store was established for the convenience of those who cannot conveniently come to the factory.

The first floor store, which will be completely remodeled later in the year, is a reception room or entrance to the spacious salesroom on the second floor, which is reached by two private elevators. All of the 7,000 square feet on the second floor is devoted exclusively to the selling of rugs and carpets and, according to Mr. Olson, "it is the most complete exclusive floor covering display in Chicago."

It is not intended that the new loop location will replace the present salesroom in the factory at Crawford and Diversey, according to Mr. Olson. "The only reason we are establishing this new loop store," Mr. Olson said, "is to enable us to better serve the thousands of families living in the suburbs and on the north and south sides to whom our factory location is inaccessible or inconvenient."

The Olson Rug Company, it is said, has the distinction of being the only manufacturer of Wiltons, American Orientals, Velvets and other domestic floor coverings west of the New England and Pennsylvania textile centers. All sales are direct to the consumer.

Offer Home Remodeling on Part-Payment Plan

A unique service in handling all types of building supply and remodeling work, on an installment basis, is now offered by the North Shore Lumber and Supply Company at 2040 2048 South Sheridan Road, North Chicago.

This established firm has been in business since 1922 with a complete building supply line, for all types of construction, and is able to handle any order from a carload of steel to a bag of dirt.

The firm caters to the entire North Shore, and emphasizes that price savings can actually be effected by dealing with a Lake county dealer instead of going farther away. Millwork, roofing, painting, plumbing and heating supplies, may be purchased and remodeling work arranged on the partial payment plan, under the system now in effect.

Money is available for such work on a loan basis, to be repaid over a period of twenty-four months. Complete architectural services and engineering advice is given without charge, to the extent that estimates and preliminary sketches on any contemplated project can be had from the company advisers, so that the home owner may know the exact costs before he starts.

The owners of this firm state that remodeling is now going ahead in many localities, prices being at their lowest level in years.

Better Light... Better Sight

NOW THAT DAYS ARE SHORTER!

It's up to you, *Mother*
to Protect those Precious eyes

In two out of three comfortable homes, lights throw glare and strain on eyes. Expert lighting engineers have created lamps that protect against these dangers. See them at your Public Service Store.

LESS daylight now for millions of eyes! Hours more of reading under artificial light. Unless you have correct lighting in your home, think of the strain this extra use of eyes can mean. Especially for young eyes which must spend hours over school books.

What correct lighting is

To protect eyes you should have from 20 to 30 foot-candles of light falling on the printed page. It should be properly diffused with no glare, no deep shadows, no contrasts to cause eyes to change focus frequently. Under such lighting, eye tension is relieved. Your body relaxes. Your nerves relax, too.

Why many homes fail to have it

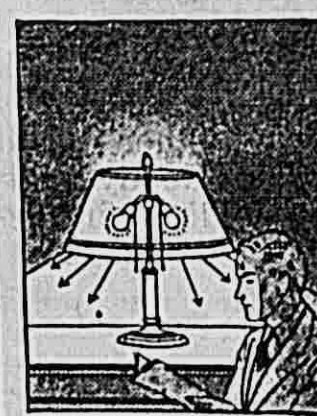

Most women would be only too glad to give their families the benefit of safe lighting; to protect the eyesight of their children. But they have no way of measuring the kind of light their lamps give. And so night after night eyes struggle on with danger of permanent injury.

How to get it

In the last few years some wonderful discoveries have been made about proper lighting. Lighting engineers have found that just by changing the position of shades, by raising or lowering the height of bulbs, and by designing a special kind of "light reflecting" shade, these handicaps to eyesight are completely overcome. Your Public Service Store has

a variety of these properly designed lamps for sale. They are beautiful as well as safe for eyes. Come in and see them, and at the same time learn, from our better lighting display, simple and easy ways in which you can improve the lighting in your home. And get Free, a marvelous little device called "The Lighting Tape Measure," which enables you to tell quickly whether or not each lamp in your home is providing safe light. Act at once. Don't allow the eyes in your family to struggle unaided another night.

Which is YOUR lamp?

Lamp 1. Bulbs too low, sides of shade too sloping. Result—glare, deep shadows, eyestrain. Lamp 2. Bulbs at right height, shade of correct design. Result—restful light, precious eyesight protected. FREE at your Public Service Store, "Lighting Tape Measure" to test your lamps. Get it today.

Food Value Suggestions For Children

Mothers Should Know Vitamin and Mineral Content of Foods

Mothers should know the vitamin and mineral content of foods the children from 6 months to 6 years are eating. This is a very important foundation building period. These recipes are selected to help the young mother estimate the food value of a meal.

Cereal Gruel

1 level tablespoon cream of wheat, barley, rice, farina, cornstarch, arrow-root or 2 tablespoons oatmeal.
2 ounces (½ cup) evaporated milk.
6 ounces (¾ cup) water.
½ teaspoon sugar.
Few grains salt.

Mix the ingredients in the top of a double boiler and heat directly over the flame to the boiling point. Cook 5 minutes, stirring to prevent burning, then place the pan over boiling water in lower part of double boiler and continue cooking one hour. Makes one-half cup.

Vegetable Pulp or Puree.

Spinach, carrots, fresh peas, string beans, dried beans, asparagus, cauliflower and potatoes (not new) are suitable. Boil vegetables in an open kettle, using a small amount of water. Carrots may be steamed. This way the flavor is retained, and there is no appreciable loss of the nutrients. All vegetables should be cooked until tender, but no longer. While vegetables are still warm, press through a fine sieve. Serve puree warm with salt and butter. One teaspoon fine bread crumbs may be added. These purees may also be used in the preparation of cream soups.

Cream of Vegetable Soup.

(Any of preceding vegetables)
½ teaspoon butter.
½ teaspoon flour.
2 ounces (¼ cup) evaporated milk, diluted with 6 ounces (¾ cup) water.
2 tablespoons vegetable pulp (as above).
Melt butter in saucepan and when bubbling add flour mixed with salt. Stir until well blended, then gradually add diluted milk and stir until smooth. Add vegetable pulp and re-heat. Yield, ¾ cup.

Oatmeal Cookies.

2 cups family flour
½ teaspoon soda
½ teaspoon salt
1 teaspoon cinnamon
½ teaspoon cloves
½ teaspoon allspice
2 cups oatmeal
½ cup shortening
1 cup sugar
2 eggs
4 ounces (½ cup) evaporated milk
1 cup raisins
Sift flour, then measure. Resist with soda, salt and spices. Add oatmeal. Cream fat and sugar. Add eggs and beat until smooth and fluffy. Add dry ingredients and milk, beginning and ending with dry ingredients, their raisins with last few stir.

Repair or Replace Old Roofs Before Bad Weather Sets In!

If your roof needs repairing or replacing, better have it done before bad weather sets in. One leak can cause a lot of damage—frequently far more than the cost of repairs.

Should a new roof be needed, let us give you a free estimate on Carey Shingles or Roll Roofings. We carry a wide variety, so you can choose the type best adapted to your needs. Backed by 60 years of experience, Carey Roofs cost no more, and frequently less, than untested materials. That's why we sell them.

My Favorite Recipes

Frances Lee Barton says:

THE person who conceived the idea of adding peanut brittle to taploca cream had a genuine inspiration. It turns this dessert into a gala sweet, especially for the children. Its crisp crunchiness makes it a welcome change from the bland puddings which form so necessary a part of the juvenile diet.

Peanut Brittle Trifle
1/3 cup quick-cooking taploca;
¼ cup sugar; ¼ teaspoon salt; 1 or 2 egg yolks; 4 cups milk; 1 or 2 egg whites, stiffly beaten; 1 teaspoon flavoring; peanut brittle, coarsely crushed.

Combine quick-cooking taploca, sugar, salt, egg yolk, and milk in top of double boiler and stir enough to break egg yolk. Place over rapidly boiling water, bring to scalding point (allow 5 to 7 minutes), and cook 5 minutes, stirring frequently. Remove from boiling water. Fold a small amount into egg whites; add to remaining taploca mixture and blend. Cool—mixture thickens as it cools. When slightly cool, add flavoring; chill. Fold in peanut brittle. Serve in sherbert glasses. Top with additional coarsely crushed peanut brittle, and garnish with whipped cream, if desired.

Banana Cream

6 ounces (¾ cup) evaporated milk, prepared for whipping
3 well ripened bananas (deep yellow, well flecked with brown spots)
2 ounces (¼ cup) orange juice
4 ounces (½ cup) sugar
Few grains salt.

Chill milk in a bowl, surrounded by chipped ice and salt. Peel bananas and remove outside fibrous layer by scraping off with back of a knife. Mash bananas with a wooden spoon, then force quickly through a potato ricer. If ricer is not available use coarse strainer. It is essential this be done quickly to prevent bananas from discoloring. There should be one cup of pulp. Add orange juice, sugar and salt to pulp. Stir thoroughly to dissolve sugar and salt. Then chill in icebox 10 to 15 minutes. Whip until stiff. With a wooden spoon fold banana mixture lightly, but thoroughly into whipped milk until well blended. Turn immediately into cold freezing pan and place in refrigerator. Requires 3 to 8 hours to freeze. This mixture may be poured into a freezing mould or in an ice cream can and packed with 1 part salt to 3 parts ice. About 3 hours are required for freezing. Freezing may also be done in an ordinary freezer. Serves 6.

Egg Nog.

3 eggs, separated
Few grains salt
3 tablespoons sugar
¼ cup berry juice
4 cups milk
Few grains nutmeg
Beat egg yolks until thick and lemon colored and whites until stiff. Add salt, sugar and berry juice to yolks, combine well and add milk. Fold in the egg whites, pour into glasses and sprinkle top with nutmeg. Serves 6.

Drop by teaspoonfuls onto an oiled baking sheet. Bake in hot oven 400 degrees. Makes three dozen cookies.

TREVOR STOCKMAN VICTIM OF STROKE

Loren H. Mickie, 61, Dies Monday at His Home

Loren H. Mickie, widely known stockman, died Monday, Sept. 24, at his home in Trevor, Wis., following a paralytic stroke Thursday from which he never rallied to consciousness. Seven years ago he suffered a similar attack from which he never fully recovered.

Mr. Mickie was born at Waverly, Iowa, April 26, 1873. When a young man he went to St. Paul where he was employed in the stock yards.

On September 8, 1895, he was united in marriage to Miss Elsie Johnson, who died 9 years ago. To this union three children were born: Misses Daisy and Myrtle Mickie, and one son, Harold Mickie, all residing in Trevor.

About twenty-seven years ago, Mr. Mickie and family came to Trevor where he was superintendent of the Trevor Stock yards.

Besides his children he is survived by two sisters, Mrs. August Schmidt, Woodstock, and Mrs. Burke Adams, Chicago; one brother, Frank Mickie, Seattle, Washington. One sister, Mrs. Henry Emerson, and one brother, Julius Mickie, preceded him in death a number of years ago.

Mr. Mickie was a member of the Masonic Lodge, Wilmet. The funeral

services were held at the home on Wednesday afternoon at 2 o'clock, with interment in Liberty Cemetery by the side of his wife.

The starting lineup for the All-Stars will be: Ends—Pacini, Bishop; tackles—Hahn, Palaske; guards—Pachay, Murphy; center—H. Schneider; halfbacks—Keulman, O'Haver; quarterback—W. Schneider; fullback—Sheen.

Managers Bill Keulman and Bill Murphy announce that admission to the game is free. That ought to bring out a good crowd to see the opening game.

AMUSEMENTS

"Million Dollar Ransom" and Vodvil at Gateway

Another smashing vodvil show, plus screen attraction, "Million Dollar Ransom," is the offering at the Gateway theatre, Kenosha, Saturday and Sunday. An extra attraction is Milt Herth, joy boy of the organ, playing songs you love to sing.

Starting Monday the Gateway offers a "three-unit perfect entertainment—Miriam Hopkins, in "Richest Girl in the World"; "La Cucaracha," technicolor sensation; and "Dumbell Letters," a load of new laughs.

"Belle of the Nineties" With Mae West Opens Next Mon. at Genesee

"Belle of the Nineties," at the Genesee Theatre, starting Monday, Oct. 1, the third of the Mae West starring pictures to come from Paramount, shows the blonde siren again in a setting of the gay '90's, which was the period of her first picture, "She Done Him Wrong."

Surrounded by three screen sweethearts, Roger Pryor, John Mack Brown and John Miljan, together with Duke Ellington and his orchestra, Katherine DeMille, Warren Hymer and Stuart Holmes, Mae West essays the role of the country's most sensational burlesque queen of the period.

As "American Beauty," Mae West became involved with an ambitious young prize fighter, Roger Pryor, of St. Louis, but, through the plotting of the prize fighter's manager, the romance is broken up, and Mae West accepts an opportunity to leave St. Louis to become queen of a popular gambling palace in New Orleans.

A fine dinner awaited the guests at Club Cedar Crest, the contribution of the bank officials. Around the table after dinner many community problems and projects were discussed by the diners. All were enthused over the announcement by Mr. Anderson that the newly organized Illinois Waterways Association seemed to be on the way towards effecting improvements in the waterways and lakes of the region. The group expects to go before the state general assembly in January to ask for a substantial appropriation for making the improvements that are so badly needed.

Out of town guests were Bill Brandt, Chicago, and Lawrence Doolittle, Waukegan.

For several years Anderson has entertained his fellow townsmen at golfing parties, and at the close of the dinner Tuesday he invited the bunch to be with him again next year. The year officials of the First National Bank of which Anderson is president, provided the excellent dinner.

HANSON OUT OF CONGRESS RACE; FILED TOO LATE

Severin Hanson, prominently known Waukegan contractor, war veteran and leader in the affairs of the National Taxpayers party who two weeks ago announced his candidacy for congress from this district on the independent ticket was forced to withdraw because of his inability to file in time to get a place in the ballot.

After deciding to enter the race Hanson found that he had less than 10 days in which to obtain 12,500 signatures to a petition of his candidacy. He and his friends succeeded in obtaining 10,000 signatures but on learning that they could not secure the additional 2,500 in time they ceased work.

This leaves the race as a clean cut issue between the Republicans and Democrats in the district with Ralph B. Church as the candidate on the former ticket and David B. Maloney on the latter.
